eYRC 2021-22: Agri Bot (AB)

Task 0: Making the submission

Follow the instructions below to submit your task on the eYRC portal.

1. **Bag File**: Rename the compressed bag file as *<team_id>.bag*. For eg: if your Team ID is AB#105, rename it as *AB_0105.bag*.

2. **Image File**:

   1. Take a **screenshot** of your PC screen showing the output of your Python script (via the launch file) and the completed the pattern as shown below.

   2. Rename the image file as **<team_id>.png.** For eg: if your Team ID is AB#105, rename it as *AB_0105.png*.

3. **Code**:

   1. Rename your python script as **<team_id>.py** using the same naming convention as above.

   2. Make sure your code is properly commented and linted.

4. Compress these three files into a `.zip` file before uploading on the eYRC portal. Name this zip file as `AB#<team_id>_Task0.zip`.

5. The structure of your zip file should look as mentioned below.

```
- AB#<team_id>_Task0.zip
  - <team_id>.bag
  - <team_id>.png
  - <team_id>.py
```

You must upload all of the mentioned files in the given format, for your task to be considered as a valid submission. Please do not place all these files inside another folder and then compress it. It should be compressed together, just select and right-click to "compress".

Visit eYRC Portal for further information.
